REIMBURSEMENT POLICY

The Clinic is regularly authorized by the Government of the Canton Ticino, but it is not recognized by the statutory health insurance (LaMal).

In some countries, the statutory health insurance and/ or private insurances might cover part of the hospitalization costs. In all cases, we invite you to apply for refund for medical and/ or hospitalization expenses (or any tax benefit) before the stay at the Clinic.

For Swiss patients: patients with a supplementary insurance might receive a reimbursement for the medical expenses. Currently in Switzerland the EGK insurance (Eidgenössische Krankenkasse) covers the costs of stay and medical care provided by the Clinic.

For German patients: in most cases the statutory health insurance does not cover the treatment costs; however, it is advisable to check your individual case with the statutory health insurance.

For Italian patients: the costs of the stay and the medical treatment are not reimbursable by the National Health System. Please contact your local health authority to receive more information on possible reimbursements.

To verify the possible coverage, even partial, of the costs by your insurance it is recommended to present the hospitalization estimate sent to you by the Clinic's secretariat.
